

**Lablabo – Compliance of compound 7PB496 to following regulatory requirements.**

	NORM REGULATION	CONTENT	COMPLIANCE	COMMENTS
<b>Food Contact</b>	FDA CFR 21	US Requirement for food contact	OK	The composition is in accordance with the positive list of Chapter 1772600, 1771210 or GRAS list
	10/2011/EC	European directive for plastics material in contact with food	NA	Not applicable to rubber compounds
<b>REACH</b>	Reg n°1907/2006	SVHC list, Annex XIV and Annex XVII	OK	No substances listed in SVHC list and General compliance to the regulation
<b>Dangerous substances</b>	2005/84/EC	Phtalates in toys and childcare articles	OK	Less than 100 ppm of phtalate
<b>Heavy Metals</b>	94/62/CE	Heavy metals in EU Packaging and packaging waste	OK	Within the limits defined by the directive 2000/53/CE
<b>TSE/BSE</b>	EMEA/410/01, rev3	Statement on transmissible bovine spongiform encephalopathy	OK	1/ Most additives that go into the composition of our products are not animal derived. 2/ Whilst the others could derive from tallow/lard, the suppliers have stated that they are in compliance with the monographs of the European Directorate for the Quality of Medicines (EDQM) and/or with the note for guidance on minimizing the risk of transmitting animal Encephalopathy agents via human and veterinary medicinal products. Tallow derivatives and/or with the regulation 1774/2002/EC laying down healths rules concerning animal by-products not intended for human consumption (Category 3 Material). Based on the above, we are confident that our products are free of SRM (Specified Risk Material)
<b>Absence of substances</b>	-	PVC and Latex	OK	Does not contain any product with PVC or Latex
	-	Bisphenol A	-	Substance no intentionally introduced

Note: Furthermore it is necessary to check in the framework of the final application:

- Any additional requirement related to regulations
- The material compatibility with fluids in contact, the operating conditions
- The neutrality for products in contact
