Att. To: GAZECHIM PLASTICS FRANCE

**US FDA Food Contact Status
TECHNYL ® A 216 NATURAL FA**

Dear Customer,

By copy of this letter, we communicate in good faith the understanding that the product, **TECHNYL ® A 216 NATURAL FA** manufactured in Europe, can be used in fabricating both **single-use and repeated-use food-contact articles that will contact all food types under all conditions of use¹ under all temperature conditions** under the laws and applicable food additive regulations administered by the U.S. Food and Drug Administration (FDA). POLYTECHNYL S.A.S. Engineering Plastics has verified this conclusion with third party legal counsel.

The foregoing statement and conclusion do not apply if there has been any modification in the composition of the product or modifications to the product resulting from processing, handling, storage or use.

This letter expires after two years or in the case of regulatory changes. A new letter can be issued upon request after the expiration of this one. It is therefore your responsibility to request an updated version, which reflects our knowledge at the time the letter is issued. This letter shall not be distributed, published or otherwise issued to any third party without the prior written approval of POLYTECHNYL S.A.S. - Engineering Plastics.

In using the product our customers are reminded to comply with all relevant legal, administrative and regulatory requirements and procedures relating to its use. This letter does not waive the responsibility of the company bringing the final product to market to check whether the final product complies with all applicable laws and is otherwise is appropriate for the specific expected intended or reasonably foreseen use.

Consultation of the original version of the regulations should be made for more information.

Yours sincerely
Your DOMO team
