

US FDA Food Contact Status

TECHNYL ® SAFE A 216FC NC

Dear Customer,

We hereby declare that the intermediate plastic material manufactured and supplied by DOMO CHEMICALS GmbH and/or its affiliated companies in Europe and identified by the trade name

TECHNYL ® SAFE A 216FC NC

- meets the applicable end-test requirements of FDA CFR 21 part 177.1500 Nylon resins and thus complies with FDA CFR 21 part 177.1500,
- the incorporated additives comply with further specific FDA CFR 21 parts, or are generally recognized as safe (GRAS),
- can be used in fabricating both single-use and repeated-use food-contact articles that may be used in contact with all food types as described in table 1 of CFR 21 §176.170(c), under all temperature of use as described in table 2 of CFR 21 §176.170(c)¹. POLYTECHNYL S.A.S. Engineering Plastics has verified this conclusion with third party legal counsel.

In using this product our customers are reminded to comply with all relevant legal, administrative and regulatory requirements and procedures relating to its use. This letter does not waive the responsibility of the company bringing the final product to market to check whether the final product complies with all applicable laws and is otherwise appropriate for the specific expected intended or reasonably foreseen use.

This statement applies to materials as supplied by DOMO CHEMICALS GmbH and/or its affiliated companies in Europe without any further modifications in the composition, resulting from processing or from inadequate use and/or storage of the above-mentioned product.

¹ FDA's Food Types and Conditions of Use are available at <http://www.fda.gov/Food/IngredientsPackagingLabeling/PackagingFCS/FoodTypesConditionsofUse/default.htm>

The above information is provided for our customers only (and we accept no liability to any third parties) and reflects our current knowledge and experience of the product at the date of the issue. All products are supplied following our general terms and conditions for sale. We can accept no liability for the effects of any chemical combinations or mixtures of the product which are carried out by our customers or third parties. In using the product our customers are reminded to comply with all relevant legal, administrative and regulatory requirements and procedures relating to its use and the protection of the environment.
